An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephanie Scruggs on 6/28/04.

Cancel claims 1-28,36,40 and 42-44.

At page 1 line 6 of the specification, replace "pending" with --U.S. Patent No. 6,749,789 ---.

The following is an examiner's statement of reasons for allowance:

Claims 30-33,35,37-39 and 41 have basis in 8-863788 and have an effective filing date of 5/27/97. Wu '261 and Dewanjee '268 would not be prior art to these claims.

Maruko '096 and '699 are not directed to thermosetting urethanes. The terminal disclaimer removes the obviousness double patenting.

Claim 29's particular wound hoop stress layer is not suggested by the cited prior art.

The declaration of 4/21/04 does not show the necessary diligence to remove the prior art rejections against the other (now cancelled) claims.

Art Unit: 1712

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
